FOCUS ROTORI

ROTORS FOCUS

Il rotore è il cuore di ogni turbina dentale: utilizzare rotori di qualità assicura efficienza e silenziosità. Tecnomed Italia propone una vasta gamma di rotori, con o senza cuscinetti, perfettamente bilanciati e costruiti con materiali di alta qualità. Sono disponibili rotori compatibili con la maggior parte delle turbine in commercio: Bien-Air®, Kavo®, Sirona®, W&H®, Ivory® e molti altri. Sono prodotti secondo gli standard EN ISO 13485, in rispetto alle norme EN ISO 10993-1, EN ISO 17665-1, EN ISO 5349. Ogni rotore è inoltre contrassegnato da un numero di serie che ne garantisce la rintracciabilità.

The rotor is the heart of every dental turbine. Using quality rotors ensures efficient and silent operation. Tecnomed Italia offers a wide range of rotors, with or without bearings, perfectly balanced and built with high quality materials. Our rotors are compatible with most turbines on the market: Bien-Air®, Kavo®, Sirona®, W&H®, Ivory®, and many others. The rotors are manufactured in according of the EN ISO 13485, EN ISO 10993-1, EN ISO 17665-1, EN ISO 5349 normative. Every rotor is marked with a serial number to guarantee full traceability.

The products are complies
EN ISO 13485

PLUS PRINCIPALI

MAIN PLUS

- ✓ Materiali di alta qualità
- ✓ Perfettamente bilanciati
- ✓ Contrassegnati con numero di serie
- ✓ Tenuta della fresa >40 Newton
- ✓ Vasta gamma
- ✓ Con o senza cuscinetti
- ✓ 12 mesi di garanzia
- ✓ EN ISO 13485, EN ISO 10993-1, EN ISO 17665-1, EN ISO 5349

- ✓ Top quality materials
- ✓ Perfectly balanced
- ✓ Marked with serial number
- ✓ Bur gripping force >40 Newton
- ✓ Wide range
- ✓ With or without bearings
- ✓ 12-month warranty
- ✓ EN ISO 13485, EN ISO 10993-1, EN ISO 17665-1, EN ISO 5349

FOCUS CUSCINETTI ALTA VELOCITÀ

HIGH SPEED BEARINGS FOCUS

Un cuscinetto dentale deve essere in grado di sopportare le condizioni più estreme ed è, allo stesso tempo, una delle componenti più importanti per il funzionamento della strumentazione. Tecnomed sceglie solo i migliori cuscinetti presenti nel mercato dell'industria dentale, con sfere sia in ceramica che in acciaio. Precisi e affidabili, grazie ai materiali di altissima qualità garantiscono una lunga durata operativa. La minima emissione di rumore è assicurata anche ad alte velocità. I cuscinetti di alta gamma vengono venduti all'interno di una confezione sigillata e contrassegnata con il paese di origine.

A dental bearing must be able to withstand the most extreme conditions and is, at the same time, one of the most important components for the performance of a dental instrument. Tecnomed chooses only the best bearings in the dental industry market, with both ceramic and steel balls. These are precise and reliable, thanks to the use of the highest quality materials that guarantee a long product life. Minimum noise emission is ensured even at high speeds. High-end bearings are sold in a sealed package and marked with their country of origin.

Per decenni, Myonic ha fornito ai clienti di tutto il mondo i suoi cuscinetti dentali **innovativi e affidabili** guadagnandosi una posizione di mercato eccezionale. Le velocità di rotazione fino a **500.000 rpm**, le vibrazioni, il vapore surriscaldato o diversi mezzi di pulizia, nonché la penetrazione di sporco come sangue e polvere dei denti, sono le maggiori sfide per tali cuscinetti speciali.

Oltre al **design individuale**, queste sfide sono soddisfatte con una **selezione sistematica di materiali e lubrificanti**. Il risultato è un prodotto su misura per questa applicazione e che soddisfa tutti i requisiti per un lungo periodo.

For decades, Myonic has been supplying customers around the world with its innovative and reliable dental bearings, gaining an exceptional position in the market. Rotational speeds of up to 500,000 rpms, vibrations, overheated steam or various cleaning tools, as well as the penetration of dirt, such as blood and tooth powder residue, are the biggest challenges for these special bearings.

In addition to a unique design, these challenges are met with a systematic selection of materials and lubricants. The result is a product tailored to this application that meets all the desired requirements over time.

Ricerca prodotti di alta qualità sul mercato a prezzi competitivi è il nostro lavoro. Tecnomed da oltre 10 anni propone anche cuscinetti con proprio brand grazie alla partnership con una storica azienda nordamericana. I nostri cuscinetti dentali vantano **alta qualità e precisione**. Sono ideali per l'uso in manipoli dentali, dispositivi medici e strumenti chirurgici. Con **finitura sfere di grado 3** ed una **precisione superiore a ABEC 7** dimostrano un'alta affidabilità.

Sono venduti con packaging industriale.

Searching for high-quality products on the market at competitive prices is our job. For over 10 years, Tecnomed has also been offering bearings under its own brand, thanks to a partnership with an important North American company. Our dental bearings boast of a high quality and precision. They are ideal for use in dental handpieces, medical devices, and surgical instruments. With a grade 3 ball and an accuracy that is higher than an ABEC 7 bearing, they are very reliable.

The bearings are sold with an industrial packaging.
